Air Purifier

Comfort Meets Economy

Facts About Indoor Air Quality

- “Indoor air pollutants have been ranked among the top five environmental risks to public health.”¹
- “Indoor levels of pollutants may be 2 to 5 times—and occasionally more than 100 times—higher than outdoor pollutant levels.”¹
- “The average adult breathes over 3,000 gallons of air every day.”²
- “Indoor pollution sources that release gases or particles into the air are the primary cause of indoor air quality problems in homes.”³
- “High temperature and humidity levels can also increase concentrations of some pollutants.”³

Tempstar® Air Purifier

- Whole home air purification system
- MERV 13 filter
- Patented Captures and Kills™ technology
- Captures up to 75% of particles .30 to 1.0 microns in size
- Kills or inactivates up to 96% of germs, pollen and mold captured
- Proven effective against 3 common pathogens:
 - Human influenza
 - Common cold
 - Streptococcus aureus
- Protects heating and cooling equipment by not producing significant pressure drop
- Can be placed in line with nearly any ductwork system
- Easy to replace, long-lasting filters
- 10-year parts limited warranty*

**To the original owner, when product is used in an owner-occupied residence, a 10-year parts limited warranty upon timely registration of your new equipment. Warranty period is 5 years if not registered within 90 days. Jurisdictions where warranty benefits cannot be conditioned on registration will automatically receive a 10-year parts limited warranty. See warranty certificate for complete details.*

LIMITED WARRANTY
Timely registration required.
See warranty certificate for
details and restrictions.

Air Purifier

High-Efficiency Home Air Filtration

The Tempstar® Air Purifier filtration system is ideal for homeowners susceptible to airborne germs and those sensitive to pollen, pet dander and more. The Tempstar Air Purifier is silent, can treat air throughout your entire home, and can clean more than 100 times more air than select portable units.

Extra Effective & Convenient

The Tempstar Air Purifier uses patented germicidal technology, the same technology trusted to protect secure government facilities. Independent lab testing on Tempstar Air Purifier technology has shown a 96% germicidal effectiveness (inactivation) within 24 hours for viruses and bacteria in the conditioned air. It includes an excellent MERV 13 efficiency. And there's no cleaning required—just replace the filter cartridge periodically.

How Does It Work?

The Tempstar Air Purifier treats 100% of the air flowing through your home comfort system using a unique three-step process:

- Precision point ionization to charge the particles as they enter the purifier
- Specially designed, continuously charged media captures airborne particles
- Kills and inactivates captured viruses, bacteria and mold, and can prevent further growth of organisms

What Is MERV?

MERV stands for Minimum Efficiency Reporting Value. MERV is the industry standard for measuring the efficiency of an air filter. The scale runs from 1 to 16, with a higher number signifying the ability to capture smaller particles.

Model: EAICA

Peace of Mind

Tempstar Heating and Cooling Products maintains high quality and reliability that help you enjoy your comfort with confidence. Each Tempstar Air Purifier is covered by excellent warranty protection with a 10-year parts limited warranty.* Ask your Tempstar dealer about optional extended warranties, which may include labor.

*To the original owner, when product is used in an owner-occupied residence, a 10-year parts limited warranty upon timely registration of your new equipment. Warranty period is 5 years if not registered within 90 days. Jurisdictions where warranty benefits cannot be conditioned on registration will automatically receive a 10-year parts limited warranty. See warranty certificate for complete details.

All systems tested and listed by the appropriate agencies.
